

## MARGINS DEMO

---

*Margins add space OUTSIDE a node (between siblings).  
Padding adds space INSIDE a node (between border and content).*

### UNIFORM MARGINS

Items with margin(20) - note extra spacing between them:

```
Item 1 with 20px margin
Item 2 with 20px margin
Item 3 with 20px margin
```

### PER-SIDE MARGINS

Using margin({ top: 10, right: 50, bottom: 30, left: 100 }):

```
Content with asymmetric margins
Left margin: 100, Right margin: 50
Top margin: 10, Bottom margin: 30
```

### MARGIN VS PADDING COMPARISON

```
Padding Margin (
Content Content
Space i Space i
```

### MARGINS IN FLEX LAYOUT

Horizontal margins create space between flex items:

```
Left item Center item Right item
```

### MARGINS IN TABLE

Table with margin around the entire structure:

Head	Head	Head
A1	A2	A3
