PERCENTAGE SIZING DEMO

===

Percentage sizing calculates dimensions relative to available space.

PERCENTAGE WIDTH

Elements with 50%, 30%, and 20% width:

50% width

30% width

20% width

PERCENTAGE HEIGHT

A container with 10% height of available space:

This container is 10% of available height
(Useful for consistent proportions across pages)

FLEX WITH PERCENTAGES

Flex items with percentage widths (25% + 50% + 25%):

25%	50%	25%

TABLE WITH PERCENTAGE COLUMNS

Columns: 20%, 50%, 30%:

20%	50%	30%
Col A	Column B (wider)	Col C
Data	More data in the middle	End

MIXED SIZING

Fixed (100px) + percentage (50%) + fill:

10 50%		Fill
Fi Half of available		Remaining space
